*Waking Up White
and Finding Myself in the Story of Race*
by Debby Irving

*New Summer Reading & Discussion
Series begins Wednesday, July 8th*

The St. John's of Lattingtown Outreach Committee invites you to join us along with members of St. John's of Cold Spring Harbor, Emmanuel Church, Dublin, New Hampshire, St. Mary's, Newton Falls, MA, and other North Shore churches for a summer reading and discussion series of Debby Irving's book: "Waking Up White, and Finding Myself in the Story of Race."

**The three Zoom discussion sessions will be on
Wednesdays- July 8, 15, 22 from 7:30 pm to 9:00 pm**

Participants will be encouraged to use the text as a mirror rather than a window; that is, we are using the author's description of her own journey in order to understand who we are, not to critique writing style and the like. Come to as many as you are able; if you miss one, you are still welcome to join. Each session will begin and end with prayer and a brief Scripture passage. This would be a wonderful introduction to anyone who has not yet begun the critical work of self-examination on issues of race in these times. To register for our discussion group, [Click here!](#) Book is available as an ebook, audio book or paperback. For more info-

**LOCUST VALLEY
COORDINATOR AND VOLUNTEER,
NOSH
LOCUST VALLEY**

I'm part of an amazing group of moms. Although I don't have children, I have been a mom to many children. We all went into "mom wisdom" when we created NOSH. It was right when the pandemic hit. Someone said the other day that we've been doing this for 100 days, but I'm not sure.

All of us knew each other before the coronavirus. We were working on starting a women's shelter for seniors right before the virus hit. So we have always worked well together. I think working in groups is the best way. We all brainstormed on how we could help and spoke to someone at the hospital. She predicted food was going to be an issue. People would be too sick to go to the grocery store or wouldn't be able to go because they had toddlers. We looked at forming NOSH from a mom's heart. All we wanted was for no one to go to bed hungry and to worry.

NOSH is Yiddish for snack. I thought the name was perfect. We know we can't fix people's lives — that's not respectful. But we wanted people to know they could call us if something happened. It really has been about food dignity. I don't like the term food insecurity.

We wanted it to be a bag of love and dignity so people know we respect them and love them. So we make the food look like it is from a market. We use plastic bags and put our logo decal on it. We quickly found out that people are happy thinking the food is a market delivery, not a handout. This is what you would do for a friend that lost a job or was sick. We get to know everyone that we give the food to.
